Senate Votes on the Cuban Belligerency Resolution.

ADOPTED BY 41 YEAS TO 14 NAYS

Mr. Hale Warns His Associates That

It Possibly Means War.

The Morgan resolution recognizing Cuban belligerency was passed in the Senate late yesterday afternoon. In the House the

resolution was passed appropriating \$50,000

for the relief of Americans suffering in

HOUSE VOTES RELIEF BILL

The Morgan resolution passed the Sen ate by the decisive vote of 41 to 14. The announcement of the vote was received with tumultuous applause, which drew from Senator Hawley an emphatic protest against "mob demonstration." The resolution as passed is as follows:

"Resolved, &c., That a condition of public war exists between the government of Spain and the government proclaimed and for some time maintained by force of arms by the people of Cuba, and that the United States of America shall maintain a strict neutrality between the contending parties, according to each all the rights of belligerents in the ports and territory of the United States."

Nays—Allison, Burrows, Caffery, Fairbanks, Gear, Hale, Hanna, Hawley, Hoar, Spooner, Wellington, Wetmore, White, Wilson—14.

Tabled the Substitute.

The substitute was as follows: which is embarrassing and destroying the commerce of the United States with Cuba. The highest motives of humanity and public interest require the cessation of hostilities and the establishment of peace, and that the President shall, in a friendly spirit, tender the good offices of the United States to Spain to the end that bloodshed may speedily cease, and that honorable and permanent peace may be established in the Island of Cuba; and, further,

"That the President, in a spirit of amity, tender the good offices of the United States to Spain in an endeavor to secure the independence of Cuba upon terms allke honorable and just to ell powers concerned. And if the President shall be unable by such friendly intercession to secure the independence of Cuba within a reasonable

dependence of Cuba within a reasonable

The substitute was tabled by the vote of 35 yeas to 15 nays. This again cleared the way for a vote on the resolution.

Mr. Hale's Warning.

Mr. Hale, who has been the recognized leader of the opposition to the resolution, arose for a final word of protest. He spoke tinge of bitterness in his tones.

could stay the course of the Senate in passing this resolution. In the votes just taken the foreign policy of this administration had been dictated, and dictated by those in

ably, in war in the near future."

Democratic and populistic senators had stood solidly together, he said, in voting down the motion that a committee make suitable inquiry into this subject. That vote was made up solidly of democratic senators, with two exceptions (White and Caffery), so that now, Mr. Hale asserted, this administration was confronted with the remarkable condition of having its foreign policy dictated by those in antagonism to it. He felt it to be a most serious and grievous condition. But he knew it was useless to seek to stay the course of this resolution.

"Here in the Senate," exclaimed Mr. Hale, "is the center of this sentiment which would drive the country to the peril-

which would drive the country to the perlious edge of war."

Mr. Gallinger answered Mr. Hale, saying
many reasons had been presented against
this resolution, but now for the first time
the senator from Maine presented a political one. He did not share Mr. Hale's
fears. He recalled the platform of St.
Louis with its Cuban plank, and on that
platform he stood. With this declaration
and the sentiment prevailing among the
American people, there was no fear of incurring the disapproval of the people or of
the republican party. Wicked, flagrant
war was now in progress in Cuba, and all
this resolution proposed was to recognize
that condition of war.

"As the senator has expressed his loyalty
to his party," queried Mr. Wellington,
"how does he explain the vote just given
against the substitute, in the language of
the St. Louis platform?"

The senator said he shared in the anxiety The senator said he shared in the anxiety of the great commercial interests of the seaboard, but there could be no yielding to these interests when lives of American citizens were in danger. This danger was enough to warrant the sending of a warship to Cuba. It took us about half an hour to get dressed and armed to sally forth for the purpose of investigating. We didn't know whether it was man or varmint, but after a long run the dogs brought up at the hen house and tried to tear it down.
